

Dear Dom,

I chose to write about the topic of kids should wear a helmet. I choose that topic because lots of kids are getting hrt these days because they are not wearing a helmet. I totally fell that i was successful in convincing more people to wear a helmet.

Some difficulties that i faced were having time management. Also another difficulty i faced was that i rushed a little. I will improve in the future by taking my time and also to apply the mini lessons more efficiently to my work in the future writhing piece.

Some improvements that i have seen since last year were not rushing and also using ethos pathos logos throughout my story. My goal for the next quarter is to apply my mini lessons to my writing and to use my class time more efficiently.
